How do we encourage mission and ministry in these changed times? The contribution of social enterprise will be increasingly important given the economic consequences of the Pandemic. This webinar will give you tools, tips and ideas for engaging and impacting your community and its needs in partnership with our agencies. Eg:

Providing business training and support to **456** entrepreneurs from **72** different countries

**100%** participants employed with Benetas

**11** baristas employed or being trained

**37** student volunteers distributing **250** meals each day

An opportunity to network with like minded people. You will be able to learn from and build on the strengths of what is already happening as we play our part together in shaping a new normal for the church and for the community.
